Education

University of Nevada, Las Vegas (UNLV) Aug 2024 – Present
M.S. in Mathematical Sciences, Applied Statistics Concentration (Thesis Track) *Las Vegas, Nevada, USA*
Current GPA: 3.54/4.00; expected graduation: Summer 2027

Bangladesh Agricultural University 2023 – 2025
M.S. in Agricultural and Applied Statistics *Mymensingh, Bangladesh*
WES-evaluated GPA: 3.81/4.00; class rank: 3rd

University of Dhaka 2016 – 2021
B.S. in Statistics *Dhaka, Bangladesh*
CGPA: 3.27/4.00

Research Interests

Causal inference; machine learning; high-dimensional statistics; biostatistical methods for biomedical applications; epidemic modeling; complex survey data analysis.

Research Experience

Collaborative Researcher / Statistical Analyst 2026 – Present
University of Nevada, Las Vegas

- Conducted statistical analysis for a collaborative study examining telehealth utilization and technology-related barriers among U.S. adults experiencing medical financial hardship using nationally representative Health Information National Trends Survey (HINTS) 7 data.
- Implemented complex survey-weighted logistic regression analyses in R and contributed to interpretation of adjusted associations across multiple telehealth and technology-related outcomes.
- Second author on the manuscript, "Telehealth Use and Correlates of Associated Barriers Among U.S. Adults Experiencing Medical Financial Hardship—Health Information National Trends Survey 7," currently in preparation.
- Contributed statistical analyses to a collaborative abstract accepted for an oral presentation at the 2026 American Public Health Association Annual Meeting; second author.

Prospective M.S. Thesis Researcher (in development) 2026 – Present
University of Nevada, Las Vegas
Thesis Chair: Rohan Dalpatadu, Professor, Department of Mathematical Sciences, UNLV
Co-advisor: Miguel Fudolig, Ph.D., Assistant Professor, Department of Epidemiology and Biostatistics, UNLV

- Developing a thesis prospectus in epidemic modeling and statistical methodology, with a focus on evaluating distributional assumptions for infection-rate parameters in SIR-type models.
- Planning simulation-based comparisons of model performance using estimation error and confidence-interval width as evaluation criteria.

Graduate Researcher 2024 – 2025
Bangladesh Agricultural University
Supervisor: Prof. Mohammad Amirul Islam, Ph.D.

- Investigated factors associated with adolescent fertility among ever-married adolescent women in Bangladesh using nationally representative Bangladesh Demographic and Health Survey (BDHS) 2022 data.
- Applied complex survey-weighted logistic regression accounting for sampling weights, stratification, and clustering; conducted data management, model interpretation, and reproducible statistical analysis in R.
- Developed a research manuscript examining socioeconomic and reproductive determinants of adolescent fertility using population-based survey data.

Undergraduate Research Assistant 2019
University of Dhaka
Supervisor: Prof. Md. Abdus Salam Akanda, Ph.D.

- Studied cyberbullying behaviors and attitudes in Bangladesh and contributed to survey design, data collection, data preparation, and statistical analysis.

Publications and Manuscripts

Peer-Reviewed Publication

- Singha, S. K., Aunsary, L., Ahmed, M. B., Karmokar, A., & **Khan, M. I. H.** (2025). Assessment tools for evaluating the efficiency of practices to control food safety performance indicators in cereal-based small-medium scale food manufacturing establishments in Bangladesh. *Food Control*, 167, 110838. doi:10.1016/j.foodcont.2024.110838

Preprint

- **Khan, M. I. H.**, Jahan, I., Islam, M. A., & Karim, M. (2026). Determinants of adolescent fertility among ever-married women in Bangladesh: An analysis of the 2022 Bangladesh Demographic and Health Survey. *medRxiv*. doi:10.64898/2026.07.21.26358612

Manuscript in Preparation

- Perera, D., **Khan, M. I. H.**, Zolfaghari, M., & Karim, M. A. Telehealth Use and Correlates of Associated Barriers Among U.S. Adults Experiencing Medical Financial Hardship—Health Information National Trends Survey 7. Manuscript in preparation.

Conference Presentations and Posters

- **Khan, M. I. H.**, Jahan, I., Islam, M. A., Karim, M., & Dalpatadu, R. (2026). Adolescent Fertility Among Ever-Married Women in Bangladesh: A Survey-Weighted Analysis of the 2022 BDHS. *2026 Fall Symposium, Nevada Chapter of the American Statistical Association*, University of Nevada, Las Vegas, October 10, 2026. **Oral presentation accepted; presenting author.**
- Perera, D., **Khan, M. I. H.**, Zolfaghari, M., & Karim, M. A. (2026). Telehealth Use and Correlates of Associated Barriers Among U.S. Adults Experiencing Medical Financial Hardship—Health Information National Trends Survey 7. *American Public Health Association (APHA) Annual Meeting*. **Oral presentation accepted; second author and statistical analysis contributor.**
- Poster presentation accepted, *2026 UNLV Interdisciplinary Research Symposium*, UNLV Student Union, November 9, 2026; poster session, 2:30–4:00 p.m.

Teaching Experience

Graduate Teaching Assistant 2024 – Present
University of Nevada, Las Vegas

- Lead undergraduate discussion sections, assist with grading, and provide individual and group instruction in statistics and mathematics.
- Courses taught or supported: MATH 181 (Calculus I); MATH 182 (Calculus II); STAT 391 (Applied Statistics for Biological Sciences); STAT 411 (Statistical Methods I).

Technical Skills

Statistical Programming and Software: R (proficient), Stata (proficient), SPSS (proficient); basic SAS and Python.

Statistical Methods: Linear and logistic regression; generalized linear models; complex survey-weighted analysis; statistical modeling; data visualization; statistical interpretation and reporting.

Research and Computing Tools: Git/GitHub, LaTeX, Microsoft Office Suite.

Professional Memberships

- Member, Nevada Chapter of the American Statistical Association (ASA), 2026 – Present

Last updated: October 5, 2026
